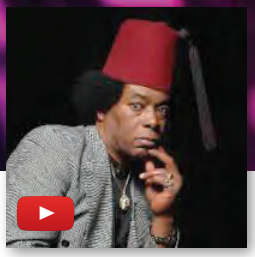
RACISM IS THE MATRIX

AN ABSTRACTION CREATED FOR NEFARIOUS REASONS

According to **Minister, Taj Tarik Bey**, *"The concept of Black People is a construct of social engineering."* ►



RACISM IS AN ABSTRACTION

In the popular cinematic film MATRIX, the construct is described as follows:
"***The matrix is a simulation engineered by artificial intelligence to keep humans sedated, but also busy so the robots can utilize their bio energy.***"

African-American people self-identify as being "Black people". The concept of "Black people and White people" is a very Eurocentric construct and creation of racism that has historically functioned as a legal framework for discrimination and segregation in the United States. Racial identity as a status does not exist in nature. If you are a person who is at odds with racism, why speak and breathe race-based concepts and constructs into relevance? By doing so you are viewing and navigating your world through a very Eurocentric construct and value system. Race is an 'abstraction' that functions very much like a matrix. A construct that was created for nefarious reasons of subordinating ethnic groups of people based on skin color; to use their time and bio energy to power a lifestyle. Racism is the MATRIX.

To understand how innocent children in the United States are intentionally miseducated about RACISM.
